

CHALLENGE:

How to create a flexible and adaptable work station in almost any clinical and office environment?

SOLUTION:

The Paladin fold down work station is a heavy duty surface made with an embedded anti-microbial finish. It will support any monitor, computer or office device, and it will fold up to be out of the way when more area space is needed.

S220: An affordable, flexible, adaptable and stable work platform that can be relocated or folded up against the wall when not in use.

- ✓ *Flexibility to modify clinical needs while preserving the value of the wall system.*
- ✓ *Adaptability to cost effectively manage changing technology and user needs.*
- ✓ *Expandability to quickly add work space during surge and other unforeseen events.*
